PROFILE

I am a creative software developer skilled in React.js and Java, eager to drive innovation and unparalleled customer experiences. I have experience building scalable web applications and collaborating cross-functionally to ensure seamless integration. My expertise extends to 3D interactive experiences using React Three Fiber and the MERN stack. For me, continuous learning and teamwork are synonymous with success, and I look forward to contributing to digital transformation projects.

WORK EXPERIENCE

2025 Sep - 2026 Mar (6M)

Furno.AI - Frontend Web Developer Intern

I developed scalable and optimized user interfaces using React.js and React-Three-Fiber for the company's SaaS website. I collaborated closely on code design and performance optimization to ensure seamless integration and alignment with overarching project objectives.

2025 Jan - 2025 Mar (3M)

Renderops - AR Developer Intern

I utilized Mind AR JS and Three.js to build interactive virtual try-on features for fashion accessories, directly enhancing the digital customer experience. I engaged in continuous development practices to deliver high-quality, scalable, and customer-centric software solutions.

PROJECTS

Forever - Full-Stack E-Commerce & AR

This was my final year project. My team & I created a comprehensive MERN stack e-commerce application that successfully integrates a secure payment gateway and augmented reality (AR) jewelry try-on functionalities. Live Link: <https://capstone-project-mern-frontend.onrender.com>

Marble Race - 3D Web Game

I developed an engaging and interactive 3D web-based game utilizing React Three Fiber, focusing on dynamic rendering, custom shaders, and visual performance. Live Link: <https://a-game-with-r3f.vercel.app/>

Portfolio Website

I designed and deployed interactive 3D web personal portfolio using React Three Fiber to showcase my technical capabilities in modern, design-driven web development. Live Links: <https://abhay-dandge-portfolio.vercel.app/>

EDUCATION

- | | |
|---|----------------------|
| • Vidyalankar Institute of Technology, Mumbai | 7 CGPA (2022 - 2026) |
| • Badrinarayan Barwale College, Jalna | 89.83% (2019 - 2021) |
| • Shri M.S. Jain English School, Jalna | 80.20% (2019) |

SKILLS

- React.js & Java
- Full Stack (MERN)
- Data Structures (DSA)
- Three.js & R3F

LANGUAGES & TOOLS

- English
- Git & GitHub
- MongoDB
- HTML, CSS, JavaScript
